CAREER OBJECTIVE

Turning ideas into apps, and challenges into opportunities. I'm a Flutter Developer and Computer Science student passionate about building practical, user-focused mobile applications. With hands-on experience in Dart and Flutter through projects and professional training, I focus on turning ideas into clean, functional, and meaningful digital experiences. I'm continuously developing my technical skills, seeking real-world opportunities to solve problems, collaborate with teams, and contribute to impactful software.

EDUCATION

Faculty of Computers and Information Technology — Fayoum, Egypt
The Egyptian E-Learning University (EELU) – Bachelor of Computer Science — *2024 – Present*
Expected Graduation: 2028

EXPERIENCE

Information Technology Institute (ITI) – Summer Training Program — *July 2026 – September 2026*
Flutter Mobile App Development Trainee

- Intensive training focused on cross-platform mobile app development using Flutter and Dart.
- Practical application of Clean Code practices, Object-Oriented Programming (OOP), and mobile architecture.

CIB Summer Internship Program — *July 2026*
Generative AI Principles & Best Practices Intern

- Explored foundational Generative AI principles, prompt engineering, and enterprise AI applications.

CERTIFICATES & COURSES

Digital Egypt Pioneers Initiative (DEPI) — *July 2026 – Present*
MCIT – Mobile App Development Track

- Specialized training in building scalable Flutter applications, REST API integration, and state management.
- Focus on version control with Git workflows, software design patterns, and professional standards.

Device Configuration & Management – IT Expert Track — *August 2026*
EELU University Summer Training Program

- Mastered hardware configuration, OS deployment, system diagnostics, and IT technical support standards.

CCNA: Introduction to Networks — *May 2026*
Cisco Networking Academy – EELU

- Covered network architectures, IP addressing (IPv4/IPv6), security basics, and router configuration.

National Telecommunication Institute (NTI) – Digital Egypt Youth Program — *Jan 2026 – Feb 2026*
Mobile App Development Track

- Completed 90 technical training hours in Mobile App Development with a score of 90%.
- Built an Attendance Management App using Flutter, Dart, and Firebase.

PROJECTS

Spanish Language Learning App — *Flutter, Dart, Audio Players* — *September 2026*

- Engineered an interactive learning app during DEPI training to teach Spanish vocabulary using modular UI design.
- Integrated audio playback for native pronunciation practice and applied OOP principles for state management.

Notes App — *Flutter, Dart, SQLite, Local Storage* — *August 2026*

- Architected an offline notes application during ITI summer training using SQLite for structured local storage.
- Implemented complete CRUD operations with database query optimization and zero-latency UI response.

Attendance Management App — *Flutter, Dart, Firebase Auth, Firebase* — *February 2026*

- Collaborated in an agile team during NTI training to develop an attendance app with email/password authentication.
- Integrated Firebase database services for real-time tracking and structured modular widget components.

SKILLS

Technical Skills: Dart, Flutter, Firebase, REST APIs, SQLite, Hive, Git & GitHub, OOP, Clean Code, Device Management, System Troubleshooting
Languages: Arabic (Native), English (Good)
